

# BRISTLE BACK REDRESSABLE

## Specialized Tools: Casing Cleaning Tools

The BRISTLE BACK REDRESSABLE\* brush tool utilizes a unique lantern design that provides greater bristle life. This lantern design also allows easy, remote location redressing when required, saving time and delivering a higher level of service. The tool's effective, robust, and flexible design allows for complex, precompletion/ Drill-Stem Test (DST) and workover cleanup operations.

### Features

- Brush cleaning life prolonged during rotation
- Self-centralizing, flexible-brush lantern
- Available in all common casing/liner sizes
- Supplied with drill-pipe box-up/ pin-down connections
- Brush pads can easily be replaced on location

### Applications

The BRISTLE BACK REDRESSABLE brush is run as an integral part of the drillstring to brush the casing ID clean as the pipe is run in hole. It can be run as part of most drilling/milling/ polishing assemblies and can be rotated and reciprocated without damage to either the casing or the tool.

### Advantages

- Scouring action ensures a clean pipe wall
- Non-rotating stabilizer sleeves and lantern avoid wear or damage to the casing and the tool bristles during pipe rotation
- Self-centralizing lantern distributes cleaning force equally for all hole inclinations
- Removes mud solids, cement sheath and pipe scale
- Saves time and inventory requirements
